COMPANY OVERVIEW

Founded over 40 years ago as a tax preparation business, TaxslayerPro has grown into a nationwide tax software company with more than 100 employees. Seasoned tax professionals, who are actively involved in tax preparation, test and design the program, ensuring that the software is complete and mistake free. We use our experience to develop built-in diagnostics that alert you to errors at the point of entry rather than the

end of the tax return. And the ease of use that has been designed into the program makes tax preparation quick and accurate.

PRODUCT

TaxslayerPro gives you a complete professional tax software package at one low price. TaxslayerPro includes: The complete 1040 program, States Package with 45 individual and 42 business states, Business package with forms 1120, 1120S, 1065, 1041, 5500, and 990, free e-file of direct deposits and electronic mailed returns, Multiple RAL Bank support, full network capability, depreciation module, and year-round technical support. TaxslayerPro lets you select how to enter information. You may choose menus within TaxslayerPro to guide you through the input of a tax return in an orderly sequence following the format of the 1040 form with macros that reduce time and eliminate input errors. Or you can pick a form from our pick list and enter the information at this point.

You can also click on the line in the 1040 and fill out the information. All numbers will be transferred accurately to the return and displayed for your verification.
