COMPANY OVERVIEW

Thomson Tax & Accounting is a leading provider of technology and integrated information solutions to accounting, tax and corporate finance professionals. With the leading and most trusted brands joining forces under one company, Thomson Tax & Accounting is dedicated to partnering with tax and accounting professionals to make them as profitable, productive and efficient as possible by:

- easing their clients' compliance burdens;
- enhancing their productivity;
- aiding their professional development; and
- providing increased expertise to their clients.

Through software and services such as CS Professional Suite, GoSystem Tax ES™ and GoFileRoom ES™, as well as research and guidance from Checkpoint, RIA, WG&L, PPC and Quickfinder, Thomson Tax & Accounting offers a solution for software, services and integrated research and guidance.

In various locations across the United States, Thomson Tax & Accounting has more than 3,500 employees, including some of the top tax and accounting experts in the industry as well as top technology specialists. All are devoted to creating comprehensive solutions for a tax and accounting professional's entire workflow, using the same high standards that those professionals use when serving their own clients.

Thomson Tax & Accounting is a segment of The Thomson Corporation, a global leader in providing essential electronic workflow solutions to business and professional customers. With operational headquarters in Stamford, Conn., Thomson provides value-added information, software tools and applications to professionals in the fields of law, tax, accounting, financial services, scientific research and healthcare.

PRODUCTS & SERVICES

Thomson Tax & Accounting offers solutions designed to streamline and automate the entire workflow processes of tax and accounting professionals, providing them with a One Partner solution for all of their technology needs.

Professional Software & Services

800-968-8900

► **CS Professional Suite**

In use by more than 50,000 accounting firms, the **CS Professional Suite** has evolved from the Creative Solutions line to become the broadest comprehensive collection of applications designed for professional public accountants. The fully integrated Suite includes write-up, payroll, client accounting, fixed asset management, financial analysis, trial balance, tax preparation, tax planning, electronic document management and practice management tools, as well as web-building and client portal services that enable secure online

collaboration. CS Professional Suite, which is available in individual modules, also offers integration with the profession's leading research and guidance products, including Checkpoint and PPC e-Tools.

► **GoSystem Tax ES™**

800-726-1040

es.sales@thomson.com

The **GoSystem Tax ES** platform, in use by nine of the top 10 U.S. accounting firms and thousands of other professionals, provides hosted and traditional tax compliance systems that include workflow processing and review tools designed to improve the efficiency and productivity of the compliance process. In addition to robust processing capabilities that enable the system to manage returns of any level of complexity, GoSystem Tax ES provides seamless integration with RIA research tools including Checkpoint, PPC, Quickfinder and TaxAlerts. The remote server version of GoSystem Tax ES also offers the additional benefits of a hosted solution, reducing IT requirements and freeing firms from installation and update tasks.

► **GoFileRoom ES™**

GoFileRoom ES offers a completely integrated web-based document management, workflow, and scanning solution — enabling firms to efficiently manage and secure all documents in every department. Combining comprehensive document management features with sophisticated workflow functionality and the power of the Internet, the system provides firms with a single tool to streamline the entire workflow process. GoFileRoom ES standardizes and organizes volumes of documents and offers the flexibility of 24/7 web-based access, so firms can efficiently share, route and review files whenever needed. Remote access lifts the restrictions of time and distance, while advanced document security ensures the safety and integrity of documents. GoFileRoom ES is also exceptionally easy to implement and learn —

alleviating firms of tedious IT tasks and shortening the learning curve.

Research & Guidance

RIA

800-950-1216

PPC

800-323-8724

<http://ppc.thomson.com>

Thomson Tax & Accounting provides tax and accounting professionals with the knowledge and information resources they need to excel through information-based solutions, expert guidance, workflow tools and CPE courses all integrated on the **Checkpoint** platform.

Checkpoint provides the broadest collection of resources available, including expert analysis from RIA, WG&L and PPC. In addition, PPC's Accounting and Auditing Guidance on Checkpoint provides professionals with quick access from anywhere to PPC guidance and e-Practice Aids, all linked with RIA and WG&L editorial materials and news. Thomson Tax & Accounting also offers a full range of customized CPE and Training Solutions with the leading brands and providers in the market — PPC, RIA, WG&L, GearUp, MicroMash, Required, AuditWatch and Quickfinder.

Corporate Software & Services
