COMPANY OVERVIEW

Originally founded as Edmond Software, Advanced Micro Solutions has been working in the tax software business since 1985, and officially changed its name in 1989. AMS started as a small two-man software shop and has since grown into a nationally respected software company.

PRODUCTS

W-2/1099 Forms Filer: This is the core of 1099-Etc. It allows a user to print all 1099s, 5498s, 1098s, 1042-S, W-2, W-2c, W-3 and W-3c on pre-printed forms.

Laser Generation: This option allows the user to print forms on blank paper.

A-T-F Payroll: As the name implies, A-T-F Payroll allows the user to enter After-The-Fact Payroll. However, due to its robust design, many customers use it for live payroll. A-T-F was designed to provide a great value. Below is a list of options

that is included in A-T-F. Many other software companies charge extra for these options:

- Unemployment forms for all 50 states, D.C. and Puerto Rico are included.
- Federal forms 940, 941, 943 and 1040 Schedule H are included.
- SITW forms for many states are included.
- Tax tables for all 50 states are included.
- A-T-F supports up to 1,999 clients.
- A-T-F supports up to 23 states per client.
- Ability to print MICR checks is included with Laser Generation Option.
- Ability to create ACH direct deposit files is included.

A-T-F can import data from several sources. Common imports are from QuickBooks, Peachtree and Excel. Once payroll data has been entered or imported, A-T-F automatically fills out the necessary state quarterly UI forms and the federal 941.

Winner of
The CPA Technology Advisor's
2009 Readers' Choice
Award in Payroll
& 1099/W-2 Compliance

At year-end, A-T-F automatically fills out the annual 940. Payroll data is also easily transferred onto the W-2 and 1099s.

Forms-Etc: This allows direct access to over 300 federal and state payroll and auxiliary payroll forms such as W-4, I-9 and 945.

Electronic Filing: This feature allows the user to electronically file 1099s, W-2s and 941s.
