

COMPANY OVERVIEW

Founded over 40 years ago as a tax preparation business, TaxSlayer Pro has grown into a nationwide tax software company with more than 100 employees. Seasoned tax professionals, who are actively involved in tax preparation, test and design the program, ensuring that the software is complete and error free. We use our experience to develop built-in diagnostics that alert you to errors at the point of entry rather than the end of the tax return. The ease of use that has been designed into the program makes tax preparation quick and accurate.
