**COMPANY OVERVIEW**

OmniVue Business Solutions delivers the innovative Microsoft Dynamics solutions that enable small and mid-sized companies to efficiently run their business and make informed business decisions. OmniVue provides purchasing options for both hosted or on-premises installations. This gives companies the flexibility they need to lower the cost and risk associated with traditional capital software so that they can quickly automate and streamline the financial, customer relationship and supply chain processes that will drive their business success, both today and tomorrow. Drawing on many years of experience and a strong alliance with Microsoft, the experts at OmniVue know how to help companies select and implement the financial and CRM software solutions that best meet their needs for scalability and ease of use with a rapid return on investment.

**MARKETS SERVED**

OmniVue provides solutions and insight for growing businesses in every market industry segment with specialized focus on healthcare, distribution and professional services markets. Often working closely with clients' CPAs and financial advisors, OmniVue positions its on-demand and hosted offerings to start-up, small and mid-market businesses across the United States and focuses on on-premise solutions for small and mid-market businesses throughout the Southeast.

**PRODUCTS**

OmniVue delivers the innovative Microsoft Dynamics financial and operational software — including Microsoft Dynamics GP, Microsoft Dynamics NAV, Microsoft Dynamics CRM and Microsoft Dynamics SL — that enable small mid-sized companies to efficiently run their business. OmniVue's mission is to offer choice and flexibility in how organizations select, utilize, deploy and support the applications they need to run their business and fuel growth. These choices include:

**Choice of Software.** OmniVue offers a choice of Microsoft software solutions designed to best meet each company's business process requirements.

**Choice of Purchase.** OmniVue offers three unique ways to utilize selected software applications — on-site, hosted or on-demand — and with flexible subscription options for improved cash-flow management.

**Choice of Deployment.** OmniVue enables flexible deployment options, both at the client's location or hosted

by OmniVue to align with each business' access requirements, budget and staff resources.

**APPLICATION SUPPORT**

With a support team that includes industry experts, CPAs, MBAs and project management professionals, OmniVue delivers the expert and personal customer support you need from both a technical and functional perspective. Our total focus on supporting, managing and hosting Microsoft Dynamics and our proven track record make OmniVue an ideal business partner.
